Homework 6, Question 6

- a. Something that returns Bool should be a comparison operator. Using the assignment operator should not return Bool.

```
bool operator==(const Cat&);
```

- b. The "this" pointer should be returned directly without the *.

```
const Dog & Dog::operator=(const Dog& rhs) {  
    this->iPaws = rhs.getPaws();  
    this->iTeeth = rhs.getTeeth();  
    return this;  
}
```
